

Fauteuil de Salon

Jean Prouvé, 1939

vitra.

Fauteuil de Salon

Fauteuil de Salon joins simple planes into a unified architectural object with a comfortable seat surface and backrest. Rediscovered in the archives of the French engineer Jean Prouvé, the armchair has been updated in a contemporary colour palette. With oiled, solid wood armrests and the designer's characteristic structural aesthetic, the Fauteuil de Salon can

be ideally combined with other pieces in the Prouvé Collection.

Materials

- **Seat and backrest:** polyurethane filling; Twill or Cité cover fabric.
- **Armrests:** solid wood with oiled finish; natural oak, core smoked oak or American walnut.
- **Base:** bent sheet steel and tubular steel, powder-coated (smooth).
- **Glides:** hard glides for carpet or felt glides for hard floors.
