

# Evluent4

An ergonomic vertical mouse

 BAKKER ELKHUIZEN

Work Smart - Feel Good

## Prevent wrist and shoulder problems with this vertical mouse

The mouse is still the most-used computer and laptop accessory, so a good, ergonomic mouse is essential.

The Evluent 4 is a vertical mouse, which you hold in a handshake position. With this posture there is less lateral wrist-bending and forearm rotation.

The handshake position of vertical mice keeps the wrist from bending as much to the side while the forearm also turns inward to a lesser degree (Schmid, et al., 2015). This means that muscle activity in the forearm is less than it would be when using a conventional mouse (Quemelo & Vieira, 2013).
