Fits like a glove!

 BAKKER ELKHUIZEN

In addition to vertical, central and precision mice we also have unique, special mice in our assortment, like the HandShoeMouse.

This is an ergonomic mouse, but with a totally different concept: your hand lies relaxed on the mouse.

This special mouse keeps the wrist from bending as much to the side while the forearm also turns inward to a lesser degree (Schmid et al., 2015). This means muscle activity in the forearm is less than it would be using a conventional mouse (Quemelo & Vieira, 2013).
