#10 Flat Head Tapping Screw

Glide Leg

Work surface

M8 Flat Head Screw

How to assemble OE1 table

Tools Required

Power Driver

Phillips Bit

Level

Allen Wrench

Safety glasses

OE1 table

Step 1

1.1 Attach top plate to the leg, with two M8 flat head machine screws. Tighten screws until snug plus 1/2 turn.

1.2 There are 2 ways to mount the plate to the leg (This choice is up to you and your preferred aesthetic):

- A. Angled edge out.
- B. Rounded edge out.

A.

OR

B.

Step 2

2.1 To attach legs to the worksurface follow the below procedure.

- A. Place work surface on the floor with finished side down.
- B. Screw two flat head screws into marked two pre-drilled holes first to locate the leg. You can use your power driver or screw driver for this.
- C. Finish by installing additional flat head screws in marked locations that are not pre-drilled. You will need to use your power driver for this.

Step 3

3.1 Level Table - Flip table upright and adjust glides until level and all feet are in contact with floor.

Disassembly for Recycling:

Materials Identification and Segregation:

Where possible, plastic components are marked with ASTM recycling codes. Use these codes to identify material type for recycling. Non marked components should be treated as mixed plastic. Ferrous metals can be identified using a small magnet for recycling. Non-ferrous metals should be separated and recycled separately. To disassemble product, reverse the above installation steps
